User stories:

Multiple Choice Problems:
- As an instructor who uses a LMS system such as Canvas,
- I want to generate multiple choice problems
- So that I can more efficiently and quickly generate quizzes for students to facilitate learning

Fill In the Blank Problems:
- As an instructor that utilizes LMS systems for student learning
- I want to be able to generate fill in the blank problems
- So that I can provide variability in the question types given to my students and for efficient and quick quiz generation.

Convert JSON object to output file for LMS system

- As an instructor that utilizes LMS systems for student learning
- I want to be able to directly input the questions given to an LMS system
- So that I can more effectively and easily convert code to questions for direct and quick creation of quizzes straight to my LMS system of choice
